Monday, April 10, '67

Dear John:-

10-4 on your reception of Country KATR Radio on April 5th, '67!

We receive periodic reports of reception from down your way.

You asked if we might be directional, no, ONE Kilowatt, Non-Directional with 150' Tower. We have a good signal.

There's a 5 Kilowatt (1320) voice in Sacramento that pushes us out normally. Apparently they were not on on the 5th. at the time you monitored us.

Thanks for your interest in Country KATR.

Jim Tull

Program Director
