Dear John,

This is to confirm that your reception report for February 25, 1968, from six A.M. to six o one, PST is correct down to the exact language of the transcription announcement. KLOA operates full time on 1240 khtz with 250 watts, non-directional. We appreciate your report, and hope you will be able to catch us again. The chief engineer will verify the report further at the bottom of this page,

Sincerely,

  
 Richard L. Clark, Announcer

John....

Thanks for the report. We are always interested in signal strength and interference from other stations, etc.,

 Harry C. Knapp,  
Chief Engineer
