Cupertino, California

Dear Sir

I am sorry for the belated answer to your report of reception of our DX test of January 9, 1967. My duties as chief engineer for three different stations keeps me quite well occupied and leaves little time for other than essential work.

Your well prepared and detailed report assures me that you recieved KMF B during the test.

Thank you for sending the report.

Sincerely

A handwritten signature in blue ink, appearing to read 'Robert Garner', written over the typed name.

Robert Garner
Chief Engineer KMF B
