FEBRUARY 16, 1968

MR JOHN SAMPSON
 20088 LOS ONDAS COURT
 CUPERTINO, CALIFORNIA
 95014

MR SAMPSON:

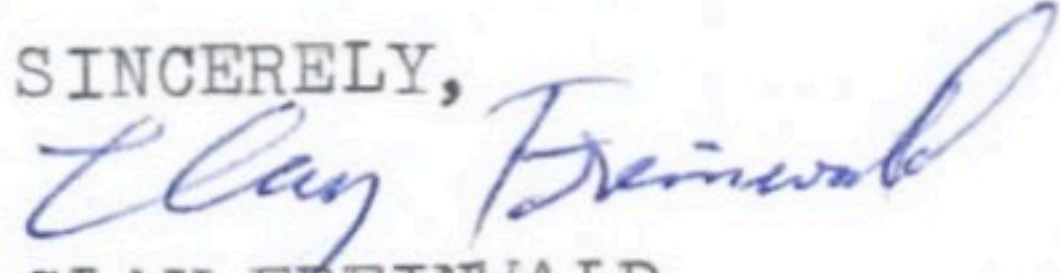

THANKYOU VERY MUCH FOR YOUR RECEPTION REPORT OF THE 12th, PLEASE
 ACCEPT THIS LETTER AS VARIFICATION OF THAT REPORT...AND FOR YOUR
 INTEREST IN KMO RADIO.

I'LL HAVE TO ADMIT THAT I HAVE NEVER HEARD OF CUPERTINO BUT FROM THE
 REFERENCE TO KEEN I GATHER THAT YOU ARE NEAR THE SOUTHERN BAY AREA
 IS THIS CORRECT?...I CAN HEAR KEEN ON OCASIONS UP HERE WHEN WE ARE OFF
 OF THE AIR BUT NOT TO WELL.

KGB IS RUNNING 1000 WATTS AT NIGHT NON-DIRECTIONAL AND SURPRIZING THAT
 THEY DON'T CAUSE MORE INTERFERENCE THAN THEY DO TO KMO'S SIGNAL AS THERE
 ARE ONLY TWO STATIONS ON AT NIGHT ON 1360 ON THE WEST COAST..KGB & KMO.

WE OPERATE WITH A FULL TIME NON-DIRECTIONAL POWER OF 5000 WATTS USING
 A GATES BC5 P2 TRANSMITTER FEEDING A SELF-SUPPORTING 200 FOOT TOWER AND
 OUR SITE IS LOCATED JUST ABOUT THREE MILES EAST OF TACOMA ON INTERSTATE
 HIGHWAY FIVE.

AGAIN THANKYOU F OR YOUR INTEREST IN KMO RADIO.

SINCERELY,

 CLAY FREINWALD
 CHIEF ENGINEER, KMO
