Cupertino, Calif. 95014

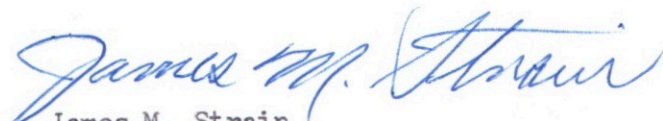

Dear John:

Many thanks for our signal report. This is to confirm your verification form received by us.

We are a 500 watt daytime AM station with a primary coverage area around Coalinga only. We were quite surprised that we were able to be heard through the QRM of KXOA.

Thanks again very much for your interest.

73's and best DX hunting to you,

James M. Strain
