Dear Mr. Sampson:

Thank you for your recent reception report of KSUE on the night of Wednesday, February 14, 1968.

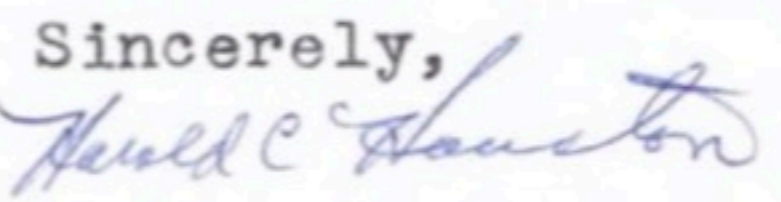

In checking your report against our Program Log, there is no doubt that you were hearing our signal during at least part of the 8:54 to 9:51 period.

A PSA on "Help Prevent Crime" was aired in the 8:45 - 9:00 PM period, and this was a pop music show ("1240 Club") which could have very well had something by the Sunshine Company following this spot announcement.

There was a Station Identification at 8:59 PM.

The 9:45 to 10:00 period is a newscast covering National and Local news, and we did have a local story that evening regarding a Mr. Bentele of Herlong who was killed in an accident near Doyle the previous night.

Thanks again for your report, and "Good Listening".

Sincerely,

Harold C. Houston,
Chief Engineer.
