Mr. John Sampson  
20088 Las Ondas Ct.  
Cupertino, California 94014

Dear John:

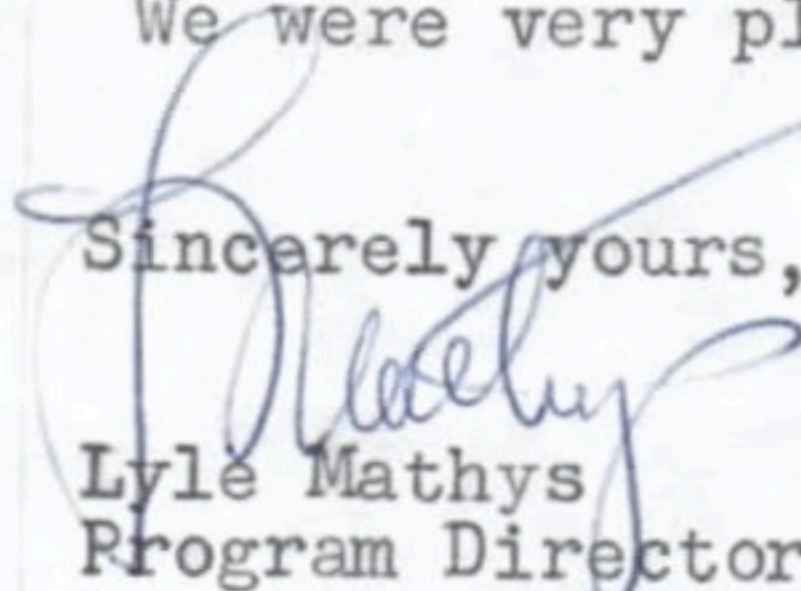

We have checked your log of announcements, items and programs for our Saturday August 20, 1966 day of broadcasting and find them all accurate, so there is no doubt that you were getting our station.

We do have a directional signal, we are 600 K. C.'s so that KFRC at 6:10 in San Francisco would cut us out and interfere.

I am enclosing our coverage map so that you note our directional signal and coverage.

We were very pleased to hear from you.

Sincerely yours,

  
Lyle Mathys  
Program Director
