Mr. John Sampson,
23 Terrence Terrace,
Freehold, New Jersey,
07728, U.S.A.

Dear Sir,

Thank you for your interesting reception report of the Scottish Home Service on 4th December on 809 kc/s. I confirm that the Programme details were as enumerated by you.

This programme is radiated on 809 kc/s by three stations, as follows:-

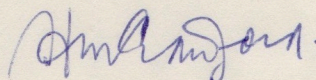

Westerglen, near Falkirk	:	Power	100 kW
Burghead, near Elgin	:	"	100 kW
Redmoss, near Aberdeen	:	"	5 kW

There is also a fourth station of small power at Dumfries.

You will appreciate that it is impossible to say with certainty which of these you heard. One way, of course, would be for you to come on the 'phone next time and we would switch them off one by one!!!! Or would we?

Wishing you all the best in the coming New Year.

Yours truly,

(H.M. Crawford)

Assistant to Head of Engineering, Scotland.
