Mr. John Sampson,
23 Terrence Ter.
FREEHOLD, New Jersey.

Dear John:

We were pleased to receive your letter advising us of reception of our Station.

On December 24, 1962, we went on air with our new RCA 10 K-10 Transmitter. Our previous power was only 1000 watts.

Our Studio's are located close to the business section of the City, while the Transmitter and 3 Tower antenna array is located about 5 miles south of the City. Pattern-change is required for evening operation. We are very pleased with the performance of this new Transmitter.

As we have not prepared special Reply Cards, we ask you to accept this as a confirmation to your letter.

Thanking you, we remain

Yours truly,
