**John Sampson
23 Terrace Ter.
Freehold, New Jersey**

Dear Mr. Sampson:

This is to verify your reception of our test program on the fifth of November. Thank you for listening and thanks very much for the patients in awaiting this letter.

KHOK is planning another such broadcast for the third of March from 0000 to 0400 P.S.T., and we promise not to be so belated in our replys. We hope to have you listening.

We have a Gates transmitter, model number BC-1T, 1 phase, 50/60 cycle, 250 watt/ 1 kw. power. We operate on 1 kw. Our antenna is a triangular stucture, one-hundred and fifty feet high, non-directional.

Sincerely,

Steve West
