Mr John Sampson  
23 Terrence Terrace  
Freehold, N.J. 07728

Dear Mr Sampson:

Thank you for writing us. You did indeed hear  
KORL RADIO at 10.47 PM HST on 26 Jan 1964.

KORL utilizes the following equipment - Gates BC-10P transmitter, operated at 10,000 watts. Antenna is a 330 ft series excited vertical radiator with the ground system extending into the banks of the Ala Wai Canal. Studios are located in the Waikiki Biltmore Hotel in the heart of Waikiki, the well-known resort section of Honolulu.

KORL completely covers the Hawaiian Islands and is the most powerful station in Hawaii. We have regular listeners on Midway, in Alaska and Samoa and regularly receive reception reports from Australia and New Zealand.

Aloha,

Frank Fitch
