Dear John,

Thank you for you DX report, I am very sorry that I haven't gotten around to answering it sooner. Your log corresponds exactly to ours.

Our station went on the air May 8 of this year and we are a daytime only station operating with a non-directional power of 1,000 watts. WE have an RCA transmitter which is remote controlled from our studios approximately 1 1/2 miles away. Our studio equipment is primarily Gates.

We conduct regular frequency checks on the second Saturday of each month at approximately 12:00 AM CST. Maybe you can pick us up again sometime.

If you are ever in the area, please drop in to see us.

Sincerely yours,

Stan Michno
