23 Terrence Tr.
Freehold, New Jersey

Dear OM:

Thanks for your report of reception. This letter will verify it as being correct. It is always nice to hear from DXer's and to know that you are able to hear us.

WBCB runs 1000 watts during the day and 250 watts at night, both non-directional to a 150-foot vertical antenna.

Thank you for your interest and please keep listening.

73,

Al Roche
