

THE RADIO  
**WELE**

P. O. BOX 4006 DAYTONA BEACH, FLORIDA May 3, 1962

Mr. John Sampson  
23 Terrence Terrace  
Freehold, New Jersey

Dear Mr. Sampson:

In reply to your reception report dated April 23, 1962; after checking our transmitter log on the above date I find that the engineer did conduct equipment tests during the hours of your report. So, in view of the above, you may consider this a verification.

WELE uses a power of 1000 watts, is non-directional with a 156 ft. guyed series-fed antenna. We use a Collins 20 V transmitter.

Thank you for your interest.

Sincerely

H.T. Murray  
General Manager.
