Dear John:

Our transmitter log reads "5:28 AM plate voltage 1280, plate current 2.64 A, antenna current 2.52, deviation plus 6..We were on 250 watts at the time..We are 1,000 watts during the daylite hours..

Thanks for your report..Ordinarily we don't expect to be heard south of Albany NY,

Best Regards

Dick Stewart chief engr
