

8200 RIDGE AVENUE, PHILADELPHIA 28, PENNA.

Dear Listener:

Thank you very much for your report of our signals on July 6, 1962 of our WFLN transmitter. Our FM transmitter is located in Roxboro, Philadelphia, with an effective radiated power of 20,000 watts at a tower height of 351 feet. Our AM Station is located in Southwest Philadelphia, and operates at 1000 watts directional north by a two tower system.

Thank you for writing.

Warren R. Wilson
