

AM **WHIS** TV

234

John.

This will confirm your reception report of WHIS AM on August 23, 1963. We are out of regular QSL cards, so I made this one. We are on 1440 KC with 5KW daytime power and .5KW night time power. Our Antenna is located at Harry Heights, on route 52, and our studios are in the municipal building. We also have an FM station on 104.5 Mc. and a Tv station on Channel 6, all in the same building. Hope this card serves its purpose. DON
