March 20, 1962

Mr. John Sampson
23 Terrence Terrace
Freehold, New Jersey

Dear Mr. Sampson:

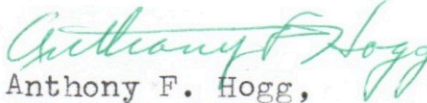

This is to verify your report of the reception of Station WHLM on March 12, 1962 from 7:09 a.m. to 7:18 a.m. Eastern Standard Time.

WHLM operates on 550 kilocycles with 1,000 watts of power, four-tower directional day and night. Our maximum signal on the day pattern is Northeast-Southwest with nulls Southeast and a greatly attenuated null in the Northwest direction. Our night pattern maximum signal is Southeast with a slight back lobe. The null areas are North Northeast and West Southwest.

This will give you an idea of your reception of this station.

Sincerely,

BLOOM RADIO

Anthony F. Hogg,
Chief Engineer
