Mr. John Sampson,
Freehold, N.J.

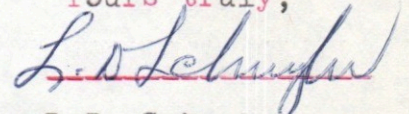

Dear Mr. Sampson:

This will acknowledge your letter of January 22, in which you state that you received us on the morning of January 21, 1963..

We were and are operating on 1000 Watts, 1390 KC., but have been granted 5000 Watts on 1320 K.C., and that is what we are running after midnite...We are awaiting inspection, for which we applied last Monday...We hope to switch over for regular programming any day now....

We appreciate your informing us of your reception, with kindest regards, I am,

Yours truly,

L.D. Schuyler,
