

WLNG . . . THE HAMPTONS BROADCASTING CO.

REDWOOD CAUSEWAY • SAG HARBOR, L. I., N. Y. • 516 SA 5-0030

September 17, 1963

Mr. John Sampson

I am writing to confirm your reception of WLNG on June 24, 1963. We commenced broadcasting on August the 12, 1963, and our hours are from sunrise to sunset. The signal you recieved was one of our test signals, when we were setting up our equipment.

Please excuse the delay in this answer to your letter, but it seems that your original letter was misplaced during the confusion that exists when a station is in the process of getting started.

If we can be of any further assistance, please let us know. If you are ever in the Sag Harbor area, drop in and pay us a visit.

Yours truly

Edward E. Eichhorn

Edward E. Eichhorn

Station Engineer
