DIAL 1310 CBS IN
PORTLAND, MAINE
779 WARREN AVE. • TELEPHONE 775-2336

December 9, 1964

Mr. John Sampson
23 Terrence St.
Freehold, N.J.

Dear Mr. Sampson;

Thank you for your report of the reception of our special DXer's program of December 7th. From the listing of items heard, I am able to confirm that your report is correct.

Eight replies have been received so far. The nearest from Connecticut, and the farthest from Olympia, Washington and Appleton, Wisconsin.

I usually try to make these letters fuller and more interesting, but I have a lot of writing to do and my hunt and peck method is not conducive to speed and efficiency.

Thanks Again,

Sincerely,

Leslie P. LeBlanc, CE WLOB AM/FM

P.S. Yes, three towers, on a line bearing 100 degrees East of North; same direction being that of our major lobe. Very great attenuation in the opposite direction.
