Mr. John Sampson
Freehold, N. J.

Dear Mr. Sampson:

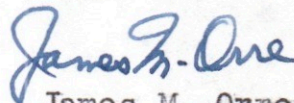

Thank you for your report of receiving us on September 29, 1963.

From the looks of your log, you were tuned in to us at that time.

Yes, WBUD does put out a fine signal in your area, and thus it is not be be expected that you could get us. Your HQ-129 X is a dandy set to use for this sort of thing.

Good luck in your dx-ing.

Yours truly,

James M. Orre
Technical Supervisor
