Dear John Sampson

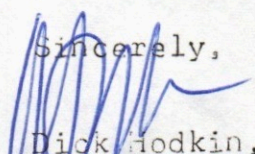

We have received your letter reporting your reception of WPAC. This letter will confirm your DX for your records.

WPAC AM & FM is located in Patchogue, Long Island, approximately 60 miles from New York City in an easterly direction.

The station first signed on the air in December, 1951 and since that time has emerged as the most powerful medium on the Island.

Thank you for your interest in the station and if we can be of service to you, feel free to call on us.

Sincerely,

Dick Hodkin,
Program Director
