Mr. John Sampson
23 Terrence Ter.
Freehold, N. J.

Mr. Sampson:

I am pleased to send verification of your reception of WRUN-AM.

Daytime power is 5000w, three tower directional (strong north west-southeast) antenna system.

Nighttime power is 1000w, five tower directional (blocking northern signals).

Ofcourse your reception on Sept. 17 at 10:03 p.m. would be at the nighttime figure.

If you have FM equipment, you might wish to try our FM station which is now at 104.3 MC with 1000,001 e.r.p.

Sincerely,

Richard E. Thomas
