"1000 WATTS OF POWER
FROM THE COAST'S HIGHEST TOWER"

April 9, 1962

Dear Mr. Sampson;

Just a quick note to verify reception of WSOB. We have a quarter wave antenna (250 ft) located 477 ft above sea level, (overall). Our station is a daytimer, omnidirectional, with a normal radius of 40 miles.

Sincerely,
Armand J. Bernard
V.D.
