

Dear Mr. Sampson,

We can confirm the frequency you were able to monitor on October 19th, 2016 at 1290 kHz was in fact CFRW AM. branded as TSN Radio 1290.

Considering your location in Grand Rapids, MN, approximately 300 miles south east of us, we are please to see that you were able to receive our 10kw transmission, even if intermittently.

We have enclosed a few extra promotional items for your collection.

Thank you for listening!

Winnipeg Bellmedia Radio Engineering.
