Dear John

Thank-you for your reception report of radio station AM1250 at 03:40 pm-04:07 pm on July 24, 1998.

AM1250 broadcasts on 1250Khz at 10kw 24 hours a day. The transmitter is a Continental Electronics 316F and is located near St. Pierre, Manitoba (35kms SSE of Winnipeg). It operated into a four tower array with the same coverage pattern and power both day and night. AM1250 is one of four stations that make up Radio Southern Manitoba. The other three stations are: CFAM 950, CKMW 1570, and CJRB 1220Khz.

Radio Southern Manitoba is owned and operated by Golden West Broadcasting LTD who have there head offices in Altona, MB.

Thank you again for your letter and we wish you continued success in listening to distant radio stations. Perhaps you will have the opportunity to listen to some of our other stations.

I have included a copy of our program guide for your collection.

Sincerely,

A handwritten signature in black ink, appearing to read "Sanford Hildebrand".
