Mr. John N. Sampson
35316 North Moose Point Rd.
Grand Rapids, MN. 55744

Dear Mr. Sampson,

Congratulations! You did indeed hear KCCO AM950 on the evening of June 4th, 2002.

I wish we had a QSL card to send, but since KCCO has recently moved it's studios downtown to the WCCO building, none are available. KCCO broadcasts business news from the Business Talk Radio Network. We have live business programming during morning and evening drive times during the week, and carry the St. Paul Saints games during the summer.

Our transmitter is in Eden Prairie, MN, with 1,000 watts of power, and a NE/SW directional pattern at night.

We appreciate you taking the time to listen and send in a reception report. I believe you are the farthest confirmed listener to this station.

Sincerely,

Joe Joncas-WCCO/KCCO engineering

A handwritten signature in blue ink, appearing to read 'Joe Joncas', is written over the typed name.
