

Dear Sir,

Thank you for your report. I confirm that you heard KCMO AM transmitting on 710 kilohertz. This is a DA2 station and our daytime power is 10 Kw and our nighttime power is 5 Kw. I do confirm that you did receive the station from the description of the content of program that you received. Below is some additional information about the station.

**KCMO - 0710** : license data for daytime operation

**KANSAS CITY , MO** Coordinates: N391908 W0942948

Class: 0B | Nominal power: 10.00 kw | RMS: 0901.23 | Antenna: DA2

This mode uses 05 towers. Pattern is Augmented.
