

920 am / 1430 am

August 24, 1998

John N. Sampson
5055 Moose Point Road
Grand Rapids, MN 55744

Mr. Sampson:

This letter is to confirm your reception of KWAD and KNSP on August 8, 1998.

KWAD transmits from 5 miles south of Wadena, MN on a frequency of 920 KHz. KNSP transmits from Staples, MN on a frequency of 1430 KHz.

You may be interested to know that on the morning of August 8, I completed a major service project on the KNSP transmitter. I think that would explain your ability to receive the signal on that day.

KWAD is celebrating its 50th year of broadcasting. It's a pleasure to know that there are people beyond the listening area that are interested in our programming. I haven't had a letter from a DXer for quite some time. I have had reception reports from as far away as Finland over the years.

Keep listening! Thanks for your letter.

Sincerely,

A handwritten signature in black ink that reads 'Doug Stromberg'. The signature is written in a cursive, flowing style.

Doug Stromberg
Engineer - KWAD/KNSP/KKWS
