

1550 96

Mr. Sampson,

This letter is to confirm your reception report dated September 1st for KQWB-AM at 2:53 PM.

KQWB-AM officially moved to 1660 on that date. We have installed a brand new Harris DX-10 transmitter and will broadcast in AM stereo. We will broadcast with 10 kW during daytime hours and 1 kW at night. We will have an omni-directional broadcast pattern.

I would also like to congratulate you as being the first QSL we have received since moving to 1660.

Thanks for listening and writing,

Mark Borchert
Chief Engineer KQWB 1660
