

MR JOHN SAMPSON
5055 Moose Point Road
Grand Rapids MN 55744

18

September 3, 1998

Dear Mr. Sampson,

I am pleased to report that your detailed report of our transmission on 1610am conforms to our program log, to confirm your reception of the Ely Area Traveler's Information Station on July 22, 1998.

This station operates with 10 watts RF output into a "flagpole" antenna - a wire runs up the flagpole to a loading coil and top element, from the Ely Chamber of Commerce log cabin at the intersection of Hwys 1 and 169, in Ely, MN - Superior National Forest the licensee.

Thank you for your interest.
David Huston... Engineer for the station.
