John,

A quick check of our log for May 26, 2003 confirms that you indeed did receive us. I have included a print of that portion of the log showing the Blue-Gold ID that played at the top of the hour for confirmation.

WBIZ AM is a relatively low power AM station operating at 1000 watts input power to a single 60 meter shunt fed tower at 246 meters above mean sea level. The effective range is only about 20 kilometers and often much less at night. We often get complaints from listeners in the outer Eau Claire metro areas saying that they cannot hear the ball games we carry at night, as 1400 is a very busy frequency.

We are consolidated with 6 other regional stations. The call letters are: WMEQ FM and AM, WBIZ FM and AM, WQRB FM, WATQ FM, and WISM FM. We are all owned by Clear Channel Broadcasting of San Antonio, Texas.

I am including some additional info for WBIZ. Thanks for letting us know we're out there and keep listening!

A handwritten signature in cursive script that reads 'Paul Orth'.
