

November 16, 2005

Mr. John Sampson  
35316 N. Moose Point Road  
Grand Rapids, Minnesota  
55744

Dear Mr. Sampson

This letter is to confirm your reception of WIND-AM on June 5th, 2005, at 23:05 CDT (Central Daylight Time),

The details of the programming you heard on our frequency of 560 Khz certainly confirm that you were receiving WIND-AM from Chicago.

WIND operates with a 4 tower directional antenna system aimed to the north-west. Our transmitting towers are located in Griffith, Indiana. The WIND Daytime power is 5,000 watts and the Nighttime power is also 5,000 watts with a slightly different pattern.

Thank you for your report,

Cordially,

  
Dave Dybas  
Chief Engineer  
WIND- AM
