May 12, 2004

Mr. John Sampson
35316 N. Moose Point Rd
Grand Rapids, Minnesota 55744

Dear Mr. Sampson:

Thank you for your letter of this week regarding your reception of WLDS last week. Your letter was addressed to "Chief Engineer". But, since our Chief Engineer is a contract engineer living in Kentucky, figured you wouldn't mind getting a reply from the general manager.

Thus, I'm writing to confirm that it was the signal of WLDS on 1180 kilohertz that you received on the night of May 6, 2004. You heard one of our part-time announcers (college student Amanda Sutton) in the process of concluding another broadcast day for us. WLDS is a daytime station and our sign-off time in May is 8pm, CDT. We have to sign off at "average sunset" each month to clear the way for WHAM, the station you referred to out of Rochester, New York.

We appreciate your letter and hope this response is satisfactory for you.

Sincerely,

Jerry Symons
Vice Pres/General Manager
