

WMIN; Sauk Center, Minnesota; 1010 kHz:

TCB

November 14, 2014

Dear John,

Thank you for your letter of November 7th. You certainly did hear our transmission from 11:56 AM to 12:26 PM on that date. A review of our program log confirms your list.

We are required to reduce our power in the late afternoon at this time of year so I am not surprised that WMIN's signal does not reach Grand Rapids. I'm enclosing a 1010 WMIN sticker along with this reply for your collection.

Thank you again for your letter and more importantly, thank you very much for listening.

Sincerely

A handwritten signature in cursive script that reads "Randy Kaye".

**Randy Kaye
Program Director
Uptown 1010-WMIN**
