Hi John,

You definitely heard our DX test! Last night we ran 5000 watts directional (SE signal), so pretty impressive you heard us! The GPS coords of the transmitter is 39.790030, -75.102434. Glad you could hear us and if you are interested in a QSL card, please send me a SASE to the following address.

Duke Hamann
PO Box 84
Dennisville, NJ 08214

Thanks Duke Hamann, KC2DUX
WNJC Chief Engineer
