

WYLL | CHICAGO'S WORD

February 21, 2002

**Mr. John Sampson
35316 N. Moose Point Road
Grand Rapids, Minnesota 55744**

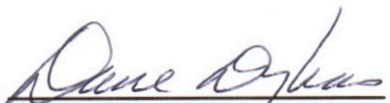

Dear Mr. Sampson,

Please let this letter serve as confirmation of your reception of WYLL-AM on May 28th 2001 during the period between 7:55 PM until 8:01 PM CDST.

WYLL-AM operates with 50,000 watts in a south-east directional pattern during daylight hours. During the period between sunset and sunrise the WYLL-AM signal is reduced to 5,000 watts and the signal is reduced in the north-west direction.

Thank you for providing your reception report.

Cordially,

**Dave Dybas
Chief Engineer**
