

November 17, 2016

Dear John Sampson

Thank you very much for listening to 1290 WZTI. We did transmit the programming that you listed in your report on.

1290 WZTI is a 5,000 watt AM station and 100 watt FM station that is owned by Mr. Willie Davis. Mr. Davis also owns WLUM-FM and WLDB-FM in Milwaukee, Wisconsin and KCXX-FM in San Bernardino, California. Mr. Davis got into Radio Broadcasting after playing American Football for the Green Bay Packers.

WZTI, True Oldies is a music station playing music from the 60's and 70's. More information on the station and the staff can be found at www.milwaukeestrueoldies.com/. The studios are located just outside of Milwaukee Wisconsin in Menomonee Falls Wisconsin.

We broadcast from south of Milwaukee with a 4 tower array. We use a Harris 5,000 watt solid state transmitter. More technical information can be found at <http://www.radio-locator.com/cgi-bin/finder?call=wmcs&sr=Y&s=C>.

It was a pleasure to receive your letter. I hope you hear many more stations from around this small world.

Best regards,

John Church
Director of Engineering
Milwaukee Radio Alliance
