October 28th, 1961.

Mr. John Sampson,
1065 Jefferson St. South,
Apt. 10,
Hutchinson, Minn.

Dear Mr. Sampson:

Many thanks for your report on the reception
of our station.

CFGM, located in Richmond Hill, Ontario, first
broadcast on the assigned frequency of 1300 kcs. on July 1st, 1957
with a limited broadcast schedule from sunrise to sunset and used
an omni-direction radiation pattern.

On March 20th, 1959 we began broadcasting twenty-
four hours a day with a power output of 1000 watts on a daytime
pattern and 250 watts output on the night time pattern, on the
assigned frequency of 1310 kcs.

On October 13th, 1961, we were granted a further
power increase to 10,000 watts daytime, 2500 watts night time.
At this time we also changed our call letters to CFGM from CJRH.

We appreciate reports from listening posts such
as yours and wish you continued success in the field of service.
73's and DX.

Yours sincerely,

Brian Sawyer,
Station Engineer.
