

KDKD; Clinton, Missouri; 1280 kc/s:

H-141

Dear John;

Thanks for you letter of reception of KDKD. We are 1000 watts daytime, a single guyed tower, series fed with usual ground system. As we are non-directional the pattern is roughly a circle of 100 miles radi for the .1 MV/M area.

Yours Truly,

*Hyle Lemen*
