KGRN

a Mitchell Station

GRINNELL, IOWA...1410 KC...500 WATTS

P.O. Box 67...Phone Belmont 6-5444

March 9, 1961

Mr. John Sampson
570 Prospect
Hutchinson, Minnesota

Dear John,

We received your letter of February 25, 1961, and were amazed to find out that our signal carried that far. Thank you very much for writing to us.

Also, we would like to confirm the report you sent. That was our sign off from 5:46 to 5:47 P.M. You heard all of it correctly. KGRN is a Daytime station and 500 watts. You were right in your letter when you said A Mitchell (not Midland) station. Frosty Mitchell, is owner of the station and also manages it. He just built a new station in Knoxville, Iowa (KNIA) on 1320, so now we have a sister station.

Again, I want to thank you for getting in touch with us.

Sincerely yours,

Max Stevens,
Chief Engineer
