

50,000 watts • CBS • 1530 Queen Anne avenue—Seattle 9, Washington

January 22, 1962

John Sampson
1065 Jefferson St. So.,
Apt 10
Hutchinson, Minn.

Dear Mr. Sampson:

Thanks for your report of reception of KIRO there in Hutchinson. KIRO operates with a power of 50 K.W. We use a two tower directional array and operate in a directional mode from sunset to sunrise. We protect station WOR in New York and KMPC in California.

Sincerely

James G. Upthegrove
Chief Engineer
KIRO-Radio
