Dear John,

Sorry for the delay in answering your letter, but have been quite busy the past few weeks. Hope you have picked us up again during that time.

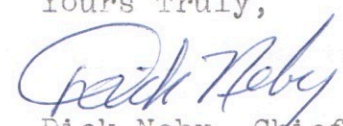

Your information sent to us was correct.

This is the first letter I have had from your state since I became the engineer here in 1959.

KJAN is a 250 watter with a vertical radiated single antenna and a primary coverage area of about 35 miles.

Antenna height...263' including a 3' concrete base.

Yours Truly,

Dick Neby Chief Engineer
