Mr. John Sampson
750 Prospect
Hutchinson, Minn.

Dear Mr. Sampson:

C

We were delighted to receive your letter of December 3. As you probably know, KRCT is the only station in the United States on WSM's frequency, and because of the fact that we operate on only 250 watts, we usually cover only about 100 miles well.

HH

For your reference, we have moved the station from Baytown to Pasadena, Texas, which actually is at the edge of the Houston city limits.

Once again thank you for writing, and should you ever be in this vicinity, be sure and look us up.

TT

Best regards,

RADIO STATION KRCT
