Mr. John Sampson
1065 Jefferson St. So.
Apt. 10
Hutchinson, Minn.

Dear. Mr. Sampson

Thank you very much for your letter. It is always interesting to see where you get under some conditions. After checking our program log for the 25th of September, we find that your times shown correspond to ours.

Between 7:00Pm and 7:12 Pm we were operating on 1000 watts of power on a Directional Pattern from three towers. Our pattern is in a clover leaf. One loop extending to the north-west, another to the north-east, and the third to the south east.

During the daytime we operate on 5000 watts non-directional.

Thank you very much for your welcome letter.

Sincerely

RADIO STATION KUBC

Bob Gray
