July 18, 1961

Mr. John Sampson  
1065 Jefferson St. So.  
Apt. 10  
Hutchinson, Minnisota

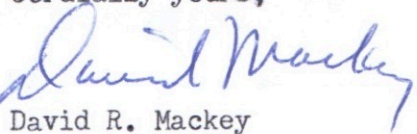

Dear Mr. Sampson:

This will varify your reception of KWHK, Hutchinson, Kansas on July 8, 1961.

Thank you very much for writing in. I am sure you were also struck with the coincidence that Hutchinson, Minnisota was picking up Hutchinson, Kansas.

We have a three tower antenna system which is directional during the night time, roughly north and south at 500 watts.

The angle of incidence of the pattern is evidently such that you are right on the edge of the pattern.

Cordially yours,  
  
 David R. Mackey
