Mr. Hohn Sampson
1065 Jefferson St. So.
Apartment 10
Witchinson, Minnesota

Dear Mr. Sampson:

This will confirm reception of our AM signals as reported for December 18, 1961 at 3:46AM.

Our antennae is of conventional type with a 427 foot overall height. Having moved to a new location recently we have not finished our antenna pattern.

Many thanks and good luck in future logging.

Respectfully,

G. Eugene Ferguson
