Dear Sir:

A recent updating of my correspondence files revealed no reply copy attached to your request for confirmation of reception. I assume that such a report had not been directed to you.

I am happy to report that our log coincide with your report and that we are pleased that you would take the time to inform us of your hearing WEVE.

Ours is a vertical 200' insulated radiator with a fairly circular pattern with the radius of our .5 MV/M contour of about 45 miles.

Very truly yours,

Joseph J Cerar
Chief Eng. WEVE
