5 February 1961

Mr. John Sampson  
570 Prospect  
Hutchinson, Minn.

Dear Mr, Hutchinson:

We are pleased to verify your  
reception of WHCU on 17 January, 1961.

WHCU has a non-directional  
pattern from a 350' self-supporting, shunt-  
excited antenna, with a 45' FM antenna above  
this. The ground system consists of 100 450'  
buried copper wire radials.

Yours truly

  
Robert L. Stevenson  
Engineering
